

2021 ANNUAL REPORT

National Environmental Center

STRATEGIC PRIORITY 1. WATER

1

6 main issues (WWTP, lakes, planting campaign, springs, wastes and financing the activities) addressed and discussed **within 13 SBC (Bâc, Răut, Larga, Tigheci, Ialpuș, Naslavcea-Vasilcău)** meetings and **2 problems** raised and pushed further;

2

Accordingly, **2 measures** applied to increase water resources resilience to climate change (planting of the protection strips and spring unclogging);

ecoalert

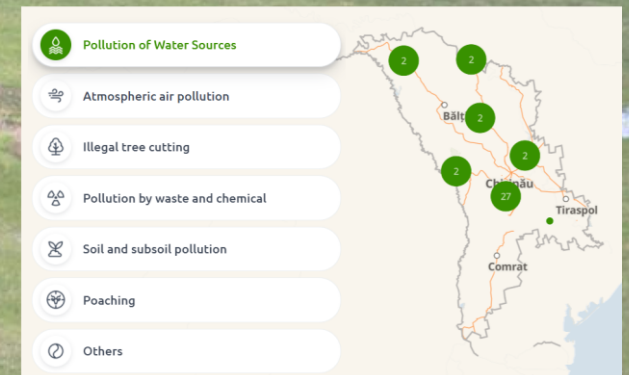

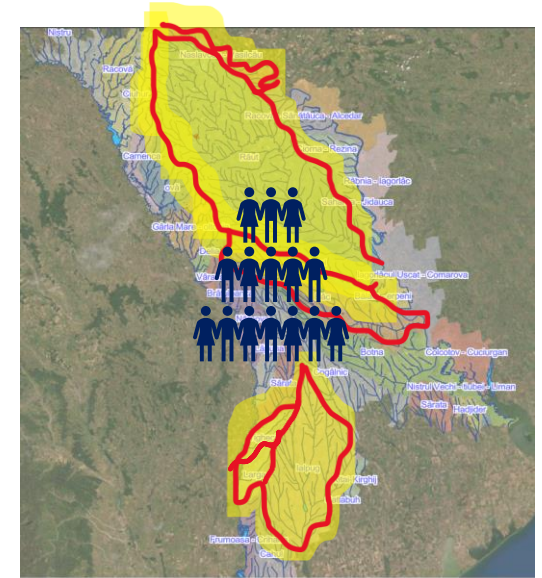

3

29 alerts on the EcoAlert that reached IEP and were resolved;

4

On overall **51 communities** reached (communities of the SBC members) and **1426 people** reached through **5 public events** and **9 events for LPAs** and business community, and **57424 people** reached through **2 awareness campaigns on social media (#DanubeDay and #EUCleanBeachDay)**;

- Public events:
- Environmental NGOs Forum 2020 (postponed to 2021)
- Grow Sustainability 2nd edition
- #EuCleanBeachDay
- Study presentation: Deficiencies in the wastewater sector in Moldova
- "Our Waters and Climate Change" Training Session for Journalists

STRATEGIC PRIORITY 2. WASTE

1

9 events for LPAs and sanitation operators

2 public events:

- 1st edition of the Grow sustainability conference
- Improving health care waste and pharmaceutical waste management in EaP countries

2

2 studies:

- Deficiencies in the waste sector in Moldova
- Implementation of Extended Producer Responsibility mechanisms to ensure waste recycling

2 declarations

1 press conference

ecoalert

3

57 alerts on the EcoAlert that reached IEP and were resolved;

Changed people behavior and public authorities' vigilance - 430 people reached through organized events and 47 posts and 3 awareness campaigns on social media with an organic reach of 68398

(#ChisinauWasteChallenge, #RecycleDay, #NoPlasticJuly)

4

STRATEGIC PRIORITY 3. GREEN ECONOMY AND CLIMATE CHANGE

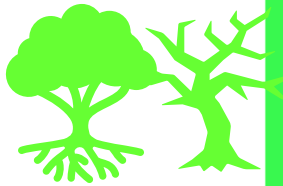

1

5 events organized:

- 4 editions of 5-days trainings for NGOs
- **3rd edition** of the Grow sustainability conference
- IarmarEco 2021
- Forum dialog for School Garden participants
- "Climate change and forest resources" Training Session for Journalists

888 youth and students trained

2

3,5 ha of protection strips planted

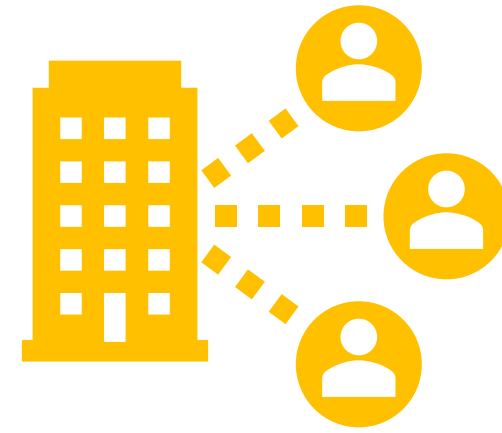

3

- **4 schools** added to the School garden network
- **1 method** of climate resilience promoted
- **1473 people** reached through **organized events** and **83 posts** and **4 awareness campaigns** on social media with an organic reach of **183241** (#ForestDay, #EcoAlert prom, #YouAskWeAnswer, #PlantYourFuture)

Institutional development

- 4 full-staff, 7 people in total,
- 3 people trained on specific topics,
- Fundraising ~200 000 USD,
- 4 applications for grants,
- ~26 000 USD for the reserve fund,

Projects under implementation

EU4Youth: School Garden for the development of agricultural entrepreneurship (03.2018 – 12.2022)

Advocating for good environmental governance in the EaP region (11.2021 - 11.2022)

2020

2018

Nov. 2021

NANOPURIMON „Advanced nanotechnology-based approaches to wastewater purification form organic pollutants and their monitoring in water bodies” (09.2020 – 09.2022)

Communication and visibility

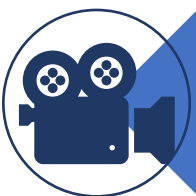

39 media appearances

886 new likes/followers on Facebook page

299 visibility materials created:
- 227 Facebook posts
- 22 digital materials (*leaflets, infographics, brochures and studies*)

1 new video about CNM

The screenshot displays the website environment.md/ro/materiale_informative with the title "Materiale informative". It features several categories of materials:

- S.E.R pe înțelesul tău. Energia eoliană**: Includes a leaflet titled "Cu vântul modern tipică va începe să genereze energie electrică abia din 2025" and another titled "Măsurile de salubritate în jurul turbinelor eoliene".
- S.E.R pe înțelesul tău. Energia de biomasă**: Includes a leaflet titled "Putești și tu să contribuie la dezvoltarea energiei regenerabile din România".
- S.E.R pe înțelesul tău. Energia solară**: Includes a leaflet titled "Un hațac de panouri solare pe un teren de 200 metri pătrați poate produce de două ori mai multă energie decât un hațac de panouri fotovoltaici".
- Ghid de utilizare EcoAlert**: A guide for using the EcoAlert application, showing steps from downloading to reporting a problem.
- Pliant proiect NANOPURIMON**: A brochure for the NANOPURIMON project, featuring a globe icon.

Problems and challenges in 2021

- Changes in staff,
- Restrictions and need to plan online events
- Long negotiations with LPAs on the land lease for the energetic plantation,
- No study visits organized in 2021 due to the frequent changes in the health regulations,
- No waste management plan implemented,

2022 plans – brief (more detailed in RAF)

- Meetings with the SBC,
- Solve local environmental identified issues,
- Organize events for LPAs, business and general public on water related topics,
- Unclogg 2 springs,
- Participate in the decision-making process (comments on the legal acts)
- Waste management plan,
- Energetic plantation
- Extension of the reforested areas etc.
